

Start school with a healthy smile

Important information about your child's dental health

The South Eastern Sydney and Illawarra Area Health Service recommend that all children have a dental check prior to starting school.

Your child will be able to concentrate and enjoy school more if they are not suffering from a dental problem such as tooth decay.

Please contact one of the following:

- **Your private dentist (listed in the Yellow Pages under 'Dentists')**
- **Your nearest public dental clinic on 1300 369 651 to register and receive more details**

Children under 5 years and all children attending school 5-18 years are eligible for FREE dental care at a public dental clinic.
